

Forecast For West Midlands
Issued by Met Office Exeter
at 1600 on Tuesday 04 May 2021

++ Valid for broadcast between 1800 and 0600

Headline:

Breezy and showery at first, but clearer later tonight.

This Evening and Tonight:

During the evening showers migrate south, becoming more frequent for a time before clearing early in the night, with clear skies developing later in the north. Winds will continue to ease down. Minimum temperature 0 deg C (32 deg F).

Wednesday:

A sunny morning but further showers will break out by midday, these easing off again by late evening. Remaining unseasonably cold with a widespread frost likely overnight. Maximum temperature 10 deg C (50 deg F).

Outlook for Thursday to Saturday:

Thursday and Friday will see further showers but plenty of sunny spells too. Temperatures temporarily recovering on Saturday, but offset by widespread rain and strong winds coming from the southwest.
